9:00 am to 3:30 pm

Deepening Knowledge of Assessment Literacy

Session Objectives:

- Deepening the understanding of Assessment Literacy by identifying the content and student-tasks that are embedded within assessment items.
- Develop the ability to code assessments by both content strands and cognitive demand to inform instruction.
- Discover how assessment data is gathered for analysis within the Surveys of Enacted Curriculum alignment tool and discuss the possibilities for incorporating Illuminate Ed-Inspect item banks, as well as locally develop assessments, into the SEC in the future.
