

Training of Trainers Academy with Dr. Anita Archer

This Training of Trainers course has been designed for professional developers and teacher-leaders who recognize the incredible impact that systematic, direct, engaging, and success-oriented instruction can have on students, teachers, and schools—people who, in their interactions with administrators, staff, and students, exemplify the idea that how well students learn depends on how well they are taught.

This course will immerse practitioners in the theory and practice of designing and delivering instruction in a manner that is systematic, direct, engaging, and success oriented—in a word: explicit. Participants will then be prepared to provide this training, as well as follow-up coaching, to educators in their home districts.

Among the critical content and skills discussed are:

- Active engagement/Opportunities to respond
- Lesson structure and design for both skills and strategies
- Effective, instructional corrections
- Professional development techniques

Training Details

Date
(all 4 days are required)

August 21-24, 2017

Time
(applies to each day)
