### October 15, 2015

#### The Basics of Content Area Literacy for Middle School and High School Students

This workshop will focus on the four big ideas of effective instruction (expectations, active student engagement, praise, and error corrections). An Explicit vocabulary routine will be taught. Participants will learn to use explicit instruction to teach summarization and text evidence skills to students. *Participants should bring higher level student reading materials for use in this workshop.*

### October 16, 2015

#### Beyond the Basics of Content Area Literacy: A Focus on College Readiness Skills for Middle School and High School Students

This workshop will focus on study strategies shown to be the most effective for students in middle school and high school settings and beyond. Participants will learn two discipline specific strategies that allow students to navigate history and science texts. *Participants should bring higher level student reading materials for use in this workshop.*
